

REFERENCE FOR TECHNOTON FUEL MESURING SYSTEMS

Secret Control GPS Ltd. provide vehicle tracking systems for Europe since 1999. We have tried several units for fuel level/flow measuring systems. 3 years we have found TECHNOTON LTD. as a fuel measuring system manufacturer. Since then we use DUT-E fuel level and DFM fuel flow measuring systems our experiences are as follows:

- easy to install
- good hardware construction
- precision in measuring
- minimal warranty problems
- price level is good for European market
- felxible contract/agreement
- calculable transports
- high quantity of stock
- many contented response from customers
